PRINCIPLE 1: LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

Black Rock has a Corporate Governance Statement on its website www.blackrockmining.com.au containing the key Black Rock corporate governance documents which establish the roles and functions reserved for the Board, the roles and functions delegated to the Chief Executive Officer and/or Executives, and the relationship between the Board and the Chief Executive Officer and/or Executives.

The Board's primary responsibility is to safeguard and enhance the interests of shareholders and stakeholders by overseeing the Company's business activities and undertaking the effective functions of strategy formulation, policy design, and supervision.

The Chief Executive Officer is responsible and charged with running the affairs of the Company and executing the strategy set by the Board.

The Remuneration Committee annually assesses and evaluates the performance of the Board and the Chief Executive Officer. Performance measures are established by the Board and outcomes of the review are reported to the Board.

Each Director has access to the Company Secretary for advice and support in effectively discharging their roles. Additionally, each Board member may seek external professional advice at the expense of the Company in respect of their roles with the approval of the Chairman. At present Mr Chiappini acts as both Non Executive Director and Company Secretary, the board considers that he is able to discharge both roles effectively

Mr John de Vries was appointed Chief Executive Officer in August 2017 and as such during the current year the Company has not done an evaluation of the Chief Executive Officer's performance. A performance evaluation will be conducted during the next 12 months.

An informal evaluation of the performance of the Board and its Directors is undertaken each year. The Chairman of the Board is the leader and driver of this process. The evaluation of the performance of the Board's various committees is undertaken on an 'exception' basis. The Chair of the Board is also the leader of the evaluation. The process for evaluating the performance of the Board, its committees and directors, has yet not been documented.

Black Rock is committed to creating a diverse workplace, which reflects the breadth of talent available in the communities it operates in. The Company believes a range of employees encompassing diversity of gender, age, ethnicity, and cultural background enables greater innovation by drawing on diverse backgrounds, experience, and skills. Improving the level of diversity, female participation, and female promotion in Black Rock remains an objective of the Board. The company's ability to roll out its diversity policy is limited by the size of the current full time work force (2018:1 FTE, 2017: 1 FTE).

The 30 June 2018 Black Rock workforce composition was one full time employee, Chief Executive Officer Mr John de Vries.

The Black Rock operates in a traditionally male dominated industry of mining exploration and related services and is therefore predictably under represented by women in its workforce. At the date of writing this report, the Company has only one full time employee, Mr John de Vries, Chief Executive Officer. When the opportunity arises, enhancing the participation of women in the workplace will become a focus of the Black Rock Board. Whilst no formal policy has been adopted, the company does adhere to the gender reporting requirements and diversity principles outlined in the recommendations.

**PRINCIPLE 2:
STRUCTURE THE BOARD TO ADD VALUE**

The Black Rock Board comprises Four Directors:

Richard Crookes	Non-Executive Chairman	Independent
Stephen Copulos	Non-Executive Director	Non-Independent
John de Vries	Chief Executive Officer	Non-Independent
Gabriel Chiappini	Non-Executive Director	Independent

The Company is not in compliance with Recommendation 2.4, the Board does not consist of a majority of independent Directors where an independent Director is a Non-Executive Director who meets the criteria for independence included in the ASX Best Practice Recommendations.

The composition of the Board reflects the size of the Company and the unique and significant industry experience the Directors bring to the Board. These factors currently constrain the practicality in Black Rock having a majority of independent Directors on its Board.

Mr Richard Crookes was appointed as a Non-Executive Chairman in October 2017 and he fulfils the Governance Council's independence criteria (Recommendation 2.5). Mr Gabriel Chiappini was appointed a Non-Executive Director on 21 March 2012 and he fulfils the Governance Council's independence criteria (Recommendation 2.5). Mr Stephen Copulos is not considered to be independent due to his current share ownership in Black Rock of 25% and as such Black Rock does not fulfil the requirement to have an independent chairman. Mr John de Vries is not considered to be an independent director due to his employment with the company as Chief Executive Officer.

During the Reporting Period, the role of the Nomination Committee was carried out by the full Board in accordance with the Nomination Committee Charter. The Board considered that no efficiencies or other benefits would be gained by establishing a separate nomination committee during this time. The Board believes that given the size of the Company and its Board, it is not practical to have a majority of independent Directors managing the Nomination Committee. All Directors therefore have an active role in the Nomination Committee.

Each new member of the Board participates in an induction program which encompasses: the duties, roles, and responsibilities of each Director; the operations of the Board and its Committees; and outlines the Company's culture and values as well as the strategic, financial, operational, and risk issues within the Company.

A biography profiling each Directors' skill, experience, and expertise is set out in the Directors' Report of the Annual Report along with their respective term of office.

**PRINCIPLE 3:
ACT ETHICALLY AND RESPONSIBLY**

The Black Rock has adopted a Code of Conduct, which prescribes guidelines and policies aimed at maintaining high ethical standards and good corporate behaviour in the workplace. The Code of Conduct may be found in the Corporate Governance section of the Company's website.

Black Rock encourages the reporting of instances which may involve a breach (or suspected breach) of the Code of Conduct.

The Committee's charter is published on the Company's website.

The Committee has access to external auditors and a high degree of financial literacy is prevalent amongst the committee members. The details, qualifications, and experience of each committee member and the attendance of committee members at Audit and Risk Management Committee meetings are contained in the Directors' Report.

The Company has implemented a number of controls in its risk management and reporting systems and regularly assesses and improves its risk management systems to best practice benchmarks.

The Board is responsible for approving the Company's policies and risk oversight as well as satisfying itself that management continues to implement, develop, and improve its risk regime in accordance with the strategic risk policies. The daily operational management of risk is delegated to management throughout all levels of the organisation under the direction of the Chief Executive Officer. The Board monitors and receives reports on areas of operational and financial risk, and thereafter considers strategies for appropriate risk management arrangements.

The Audit and Risk Management committee monitors the integrity of financial reporting and the internal risk control regime. The Committee meets at least twice per year. The categories of risks identified and reported include: operational; health and safety; contracting; environmental; statutory and compliance; product; reputation; credit and financial; business security; and interruption.

The Company does not comply with Recommendation 7.1, as the composition of the Board does not lend to the practicality of a majority of independent Directors managing the Audit and Risk Management Committee. The Non-Executive Directors, CFO, and Company Secretary are members of the Audit and Risk Management Committee. The Committee is chaired by Mr Gabriel Chiappini.

The board and committee have met during the year to review the entity's risk management framework and associated risks. The

The Company faces risks inherent to its business, including economic environmental and social sustainability risks, which may materially impact the Company's ability to create or preserve value for security holders over the short, medium or long term. The Company has policies and procedures in place to help mitigate and manage these risks.

The Chief Executive Officer and the Chief Financial Officer equivalent have provided the Board with a declaration in accordance with Section 295A of the *Corporations Act 2001*, assuring the Board that a sound system of risk management and internal control is operating effectively in aspects related to financial reporting risks.
